# Report of the Board of Directors of the Fund

Dear Shareholders,

We are pleased to present the annual report, including the audited financial statements of BA<sup>3</sup> STRATEGIC INVESTMENT SICAV as at December 31, 2023.

In the framework of our mission, we have proceeded to a review of and discussed the accounts of the Fund with representatives of Adepa Asset Management S.A. - the Fund's appointed management company, Banque Havilland S.A. – the Fund's appointed depositary bank - and the independent auditors of the Fund.

We have noted that the amounts in the annual accounts as of December 31, 2023 are in our view consistent with the accounting documents and information that were made available to us.

#### Role and Responsibility of the Board of Directors (BoD)

The responsibility of the BoD is governed by the Luxembourg law of August 10, 1915 on commercial companies, as amended and by the law of December 10, 2010 on undertakings for collective investments.

The BoD has furthermore adopted the ALFI Code of Conduct for Luxembourg investment funds aimed at providing boards of directors with a framework of high-level principles and best practice recommendations for the governance of Luxembourg investment funds.

The BoD continuously assesses its good professional standing and appropriate experience and ensures that it is collectively competent to fulfill its responsibilities.

The BoD furthermore declares that it is acting in the best interest of the Fund with the potential conflict of interests related to each of the directors' respective roles in the entities that serve the Fund being mitigated by the separation of functions and being duly disclosed and made public in Section 2 of the Fund prospectus.

Furthermore, none of the directors has shareholding in the Fund or has declared a conflict of interest with the applicable legal provisions to the management of the Fund.

#### Board of Directors and Shareholder Meetings activity during the year

During the financial year 2023, the BoD held four meetings, on March 3<sup>rd</sup> 2023, April 28<sup>th</sup> 2023, September 8<sup>th</sup> 2023 and November 30<sup>th</sup> 2023.

Moreover, the BoD executed during the financial year six circular resolutions, which are a mechanism that allow the BoD of the Fund to take a resolution without holding a board meeting thereof. Circular resolutions are commonly used for non-contentious and routine resolutions that need to be taken in between quarterly BoD meetings.

The Fund Annual General Meeting was held on April 28<sup>th</sup> and among other matters, the Meeting decided:

- to renew directorship mandates respectively of Mr. Roberto Arosio, Mr. Carlos Morales Lopez, Mr. Massimiliano Nannetti and Mr. Massimoluca Mattioli and the appointment of Ms. Laura Monopoli (approved by CSSF on July 18<sup>th</sup> 2023) for a period of one year ending on the date of the next Annual General Meeting to be held in 2024;
- to review the mandate of Ernst & Young as "Réviseur d'Entreprises Agréé" for the audit of the financial statements of the Fund as at December 2023.

During last quarter of 2023, the Board of Directors promoted a beauty contest to review terms and conditions for the mandate of "Réviseur d'Entreprises Agréé" for the Fund and a Request for Proposal was submitted to leading operations on the market place. As a result, the Board of Directors decided to approve the revised proposal received by Ernst & Young for the audit of the financial years ending on December 31<sup>st</sup> 2024, 2025 and 2026, subject to the relevant Annual General Meeting resolutions.

# Report of the Board of Directors of the Fund (continued)

#### Major Activities of the Fund during the year

On January 27<sup>th</sup> 2023, the CSSF visaed new prospectus in relation to SFDR pre-contractual disclosures of BA3 Robeco Crescita Sostenibile.

On July 14<sup>th</sup> 2023, the CSSF approved the launch of four new Sub-Funds:

- BA3 STRATEGIC INVESTMENT SICAV BA3 Aletti Obbligazionario Attivo 3
- BA3 STRATEGIC INVESTMENT SICAV BA3 Blackrock Azionario Globale Multi Tematico
- BA3 STRATEGIC INVESTMENT SICAV BA3 Fidelity Azionario Globale Research
- BA3 STRATEGIC INVESTMENT SICAV BA3 RFN Conservativo & Attivo

On October 27<sup>th</sup> 2023, the CSSF approved a new prospectus integrating the above-mentioned new sub-funds along with other modifications such as additional disclosure on fees calculation.

On November 23<sup>rd</sup> 2023, the CSSF approved a new prospectus providing updates on the following matters:

- PRIIPs aspects,
- redemptions in quantities only,
- new fees confirmation and
- some aspects of investment objectives and policies of four Sub-Funds, including RTS for BA3 Robeco Crescita Sostenibile

All of the above were duly communicated to the shareholders.

#### Market's Performance

Overall, 2023 was a positive year for the Sicav. All the sub-funds recorded gains with the exception of BA<sup>3</sup> UBS Crescita Asia which, given the strong underperformance of Chinese Markets, closed the year with a loss.

Global equities advanced over a volatile year as moderating inflation and expectations of less restrictive monetary policies supported investor sentiment. Equities started the period on a strong note before turmoil in the banking sector in the US and Europe, dampened risk appetite. Mid-sized and regional banks in the US witnessed a loss in the value of their long-dated government bonds due to aggressive rate hikes by the US Federal Reserve (Fed), which caused significant volatility in the financial sector. Additionally, uncertainties before the US debt ceiling deal and a rating downgrade of the US government's long-term debt due to a widening budget deficit kept markets under pressure. Sentiment was also weighed down as major central banks enforced their "higher for longer" views on interest rates. At the same time, the unfolding conflict and tragic events in Israel and Gaza kept global sentiment in check. However, strong corporate earnings and resilient economic data supported overall returns. Towards the end of the period, stocks rallied sharply as central banks in developed markets slowed the pace of interest rates hikes, which reinforced hopes for a soft landing. Against this global backdrop, key regional equity markets ended higher, with the US and Europe ex UK advancing the most. At a sector level, telecommunications and information technology were the leading gainers as the artificial intelligence (AI) theme buoyed sentiment, while utilities and consumer staples names underperformed.

Global bond markets broadly posted positive returns during the period 2023. Credit markets appeared resilient as investors became hopeful of a slower pace of global monetary policy tightening and relatively stable corporate fundamentals. However, this proved to be for a short time as markets again turned volatile in March following the collapse of Silicon Valley bank, which led to fears over a broader contagion across the banking system. Concerns about China's economic recovery and the fast-approaching deadline for a decision on the US government's debt ceiling further weighed on markets. However, sentiment improved as negotiators reached an agreement to avert a default. With the closure of First Republic Bank in May, the financial turmoil looked more contained, and volatility subsided significantly. Markets remained healthy on the back of strong corporate earnings and receding recession risks following healthy labor markets, resilient growth and weakening inflation prints. The sentiments then weakened again in October as the unfolding conflict and tragic events in Israel and Gaza led to significant concerns over geopolitical risks in the region. In addition, expectations for "higher for longer" interest rates, helped by strong US economic and inflation data, weighed on markets, and led to a sell-off in sovereign bonds. Last two months of the period brought some respite to markets wherein bonds rebounded sharply, recouping some of the earlier losses.

# Report of the Board of Directors of the Fund (continued)

Sovereign bonds yields recovered - including US Treasuries, UK Government bonds (Gilts) and German bund - as yields continued to decline during the last two months of the year. In the corporate credit space, investment grade bonds posted positive returns as credit spreads tightened globally.

High yield bonds outperformed investment grade bonds, except for Asian high yield bonds, which continued to disappoint amid a broad-based sell-off in China's property sector.

In December, the range of funds was expanded with the launch of a new investment strategy entirely focused on the fixed income market: "BA3 Aletti Obbligazionario Attivo 3" new sub-fund where "Attivo" qualifies the management style of the fund and "3" is about the focus to outperform the returns on time horizon of 3 years in Euro. At the end of December The fund raised EUR 42 Mln and started the investment process.

#### Sub-Funds' performance

#### BA<sup>3</sup> Aletti Obbligazionario Attivo 3

Newly launched fund which started investment activity in December. This is an actively managed fixed income proposition aimed at outperforming the euro bond market over a 3 year time horizon. The fund is mainly focused on the euro denominated government bond market but may also invest in the corporate sector up to 50%. Duration will usually be managed in a range between 3 and 5.

At the end of December the fund has reached the threshold of EUR 42.1 Mln in assets under management.

Annual Performance based on the last nav date in December is +0.84% for share class A and +0.87% for share class B.

#### **BA<sup>3</sup> Aletti Prudente**

The Sub-Fund is actively managed. The investment objective is to generate medium-term capital growth by applying various investment strategies across a wide range of asset categories in line with the risk budget. Allocation is made opportunistically from time to time therefore; the investment focus may change in the short term. Equity exposure may not exceed 30%.

At the end of December the fund manages c. 48.8 Mln.

Annual Performance based on the last nav date in December is +3.49% for share class A and +4.03% for share class B.

#### BA<sup>3</sup> Anima Reddito e Crescita

The objective of the Sub-Fund is the medium to long-term appreciation of capital, with moderate volatility. "Income" indicates the need for "proceeds" corresponding to a balanced portfolio allocation in terms of asset classes, while "Growth" refers to the search for capital growth. It is an actively managed multi-asset and multi-approach Sub-Fund, with a target equity component of 40%, which invests in Anima funds. The Sub-Fund can invest between 30% and 60% in UCITS equity/flexible equity. The Sub-Fund is not managed with reference to a benchmark.

At the end of the year, the fund manages about EUR 6.3 Mln.

Annual Performance based on the last nav date in December is +2.05 for share class A1 and +2.07 for share A2.

#### BA<sup>3</sup> Fidelity Crescita Equilibrata

The Sub-Fund is actively managed. The objective of the Sub-Fund is to gain exposure to global equity and bond markets by investing primarily through UCITS/UCIs, including ETFs. The Sub-Fund is managed with a risk-aware approach and is diversified across regions and sectors. The term "Balanced Growth" refers to the search for capital growth but with a balanced approach in terms of portfolio composition, which the Sub-Fund achieves through a diversified portfolio composition with an equity weighting between 40% and 60%.

At the end of the year, the Fund manages about EUR 99.7 Mln.

Annual Performance based on the last nav date in December is +8.25% for share class A and +9.34% for share class B.

# Report of the Board of Directors of the Fund (continued)

#### Firmitudo Flexible Strategy

The objective of the Sub-Fund is to offer to its shareholders an absolute positive return as high and as stable as possible. The Sub-Fund will achieve its investment policy by backing trends for growth and/or the volatility of the markets. This Sub-Fund invests primarily both in international bonds and international equities with an unconstrained approach.

At the end of the year, Total assets are Euro 16.22 Mln.

Annual Performance based on the last nav date in December is +6.17% for share class A and +6.62% for share class B.

#### **BA<sup>3</sup> Invesco Reddito**

The Sub-Fund is actively managed. The investment objective is to achieve capital appreciation and income, while preserving the value of invested capital in the medium and long term. The term "Income" represents the need for "profitability" to which the Sub-Fund responds through a balanced allocation of the portfolio in terms of asset classes. The maximum indirect exposure to equities, including the implicit exposure in any underlying funds, is 35% of the total net asset value of the Sub-Fund, with the aim of maintaining equity exposure at 30% for most of the time.

At the end of December, the fund manages about EUR 41.4 Mln.

Annual Performance based on the last nav date in December is +6.61% for share class A and +7.78% for share class B.

#### BA<sup>3</sup> JPMorgan Cedola

The Sub-Fund is managed using a multi-asset approach, leveraging specialists from JPMorgan Asset Management's global investment platform, with a focus on risk-adjusted income. The allocation of the Sub-Fund may vary in response to market conditions; however, it will aim to have a higher allocation of debt securities compared to other asset classes. The term "Coupon" is related to the need to provide periodic cash flows: it is a distribution income Sub-Fund with an expected annual coupon of 2.5/3% (obtained primarily through investment in bond components and up to 25% in equity components with a focus on dividend distribution).

At the end of December, the fund manages about EUR 50.2 Mln.

Annual Performance based on the last nav date in December is +3.74% for share class A and +4.88% for share class B.

#### BA<sup>3</sup> Pictet Crescita Dinamica

The Sub-Fund is actively managed. The investment objective is to achieve medium-term capital growth primarily through direct equity investments. The Sub-Fund combines a thematic approach and a quantitative stock selection approach within a diversified portfolio composition strategy that is independent of any benchmarks. The combination of the two approaches is an efficient solution to ensure more stable long-term performance. The term "Dynamic Growth" refers to the search for capital growth to which the Sub-Fund responds through a "dynamic" equity matrix portfolio composition. Equity exposure can range from 50% to 100%. The Sub-Fund is not managed with reference to a benchmark.

At the end of the year, the fund manages about EUR 132.5 Mln.

Annual Performance based on the last NAV date in December is +13.62% for share class A and +15.06% for share class B.

#### BA<sup>3</sup> Pimco Difesa

The Sub-Fund is a low volatility investment solution with specific focus on European fixed income. The investment strategy aims to implement the investment process and philosophy of the delegate Investment Manager's total return investment process, including top-down and bottom-up decision-making inputs to identify multiple sources of value, with an emphasis on shorter-term securities.

At the end of December, the fund manages about Euro 83.1 Mln.

Annual Performance based on the last nav date in December is +3.78% for share class A and +4.09% for share class B.

### Report of the Board of Directors of the Fund (continued)

#### BA<sup>3</sup> Robeco Crescita Sostenibile

The objective of the Sub-Fund is to acquire exposure to global equity and fixed income markets, primarily investing through UCITS consisting of ESG-focused ETFs, with a best-in-class approach to underlying investments. The Sub-Fund promotes certain ESG characteristics (environmental, social, and governance) and integrates sustainability risks into the investment process: it is classified under article 8 SFDR. It is an actively managed Sub-Fund, investing exclusively in Robeco UCITS (of which at least 75% are classified under article 8 or 9 SFDR), and expects an equity weighting between 40 and 60%; The Sub-Fund is not managed with reference to a benchmark.

At the end of the year, the fund manages about EUR 15.7 Mln.

Annual Performance based on the last nav date in December is +6.83% for share class A and +7.75% for share class B.

#### BA<sup>3</sup> UBS Crescita Asia

The objective of the Sub-Fund is to generate long-term capital growth and income by investing in a diversified portfolio of assets focused on Asia (excluding Japan) with a particular preference for Chinese assets. The Sub-Fund is actively managed and invests in active UBS funds and both UBS and third-party ETFs. An equity investment between 30% and 70% is expected, with approximately half of the portfolio allocated to the Chinese market. The Sub-Fund is not managed with reference to a benchmark.

At the end of the year, the fund manages about EUR 23.8 Mln.

Annual Performance based on the last nav date in December is -3.72% for share class A and -2.80% for share class B.

#### Fund activity outlook for 2024

#### New Sub-Funds

In order to meet investors' demand, the members of the BoD have approved the launch of the below listed 3 new Sub-Funds, in cooperation with 3 leading international management companies acting as sub-delegated investment managers, which shall follow the investment objectives, risk profiles and fees as detailed in the SICAV's Prospectus with VISA stamp as of November 23<sup>rd</sup> 2023.

- BA3 RFN CONSERVATIVE & ATTIVO
- BA3 BLACK ROCK AZIONARIO GLOBALE MULTI TEMATICO
- BA3 FIDELITY AZIONARIO GLOBALE RESEARCH

#### Mergers

In order to:

- ✓ generate a consistent performance
- ✓ optimize costs through economies of scale and hence to provide improved return for the shareholders and,
- ✓ improve the prospects of return through a broader range of assets,

the BoD approved with Circular Resolution on February 26<sup>th</sup> 2024,and in accordance with the provisions set forth in their relative Common Terms of Merger, to proceed with the following mergers:

- BA<sup>3</sup> ANIMA REDDITO E CRESCITA absorbed by BA<sup>3</sup> INVESCO REDDITO;
- BA<sup>3</sup> JPMORGAN CEDOLA absorbed by BA<sup>3</sup> ALETTI PRUDENTE.

The Effective Date of the mergers shall be on April 5<sup>th</sup> 2024, including a notice period of thirty (30) days given to the Shareholders of the Absorbed Sub-Funds and Receiving Sub-Funds and additional five (5) business days before the date of calculation of the relevant share exchange ratio.

Both Mergers will entail the transfer of all assets and liabilities of the Absorbed Sub-Fund to the Receiving Sub-Fund on April 5<sup>th</sup> 2024, in exchange for the issue of shares in the Receiving Sub-Fund. Shareholders who have accepted the Merger will receive in exchange of the shares of the relevant class they hold in the Absorbed Sub-Fund, shares of the corresponding class in the Receiving Sub-Fund.

### Report of the Board of Directors of the Fund (continued)

#### **Change of Depositary Bank and Transfer Agent**

On April 20<sup>th</sup> 2023, Banque Havilland and Banco Inversis have reached a strategic agreement by which Banco Inversis will acquire the institutional depository business line of Banque Havilland. In the context of such transaction, it is also envisaged that the Transfer Agent function will be transferred to ADEPA, already appointed as management company.

The above changes are subject to CSSF approval and will not generate any fee increase for the relevant services.

The closing of the transaction - expected in the course of year 2024 - will be communicated in the manner required.

The Board of Directors of the Fund, March 29, 2024

In the corporate credit space, investment grade bonds posted positive returns as credit spreads tightened globally. High yield bonds outperformed investment grade bonds, except for Asian high yield bonds, which continued to disappoint amid a broad-based sell-off in China's property sector.

#### Investment Management Report (continued)

#### Market Overview (continued)

With respect to the investment activity of the Sub-Funds, 2023 has been a good year in terms of performance. They all recorded gains with the exception of BA<sup>3</sup> UBS Crescita Asia which, given the strong underperformance of Chinese Markets, closed the year with a loss.

At the end of Q4 our range of Sub-Funds has been expanded with the launch of a new investment strategy entirely focused on the fixed income market.

• BA3 Aletti Obbligazionario Attivo 3: Obbligazionario is linked to fixed income investment of the Sub-Fund, attivo is linked to the actively managed, 3 is about the focus to outperform the returns on time horizon of 3 years in Euro. At the end of December The Sub-Fund raised EUR 42 Million and started the investment process

At the end of the year, total assets under management amounted to approximately EUR 560 Million.

### **BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> Aletti PRUDENTE**

At the end of December the Sub-Fund manages about 48.8 million.

In terms of asset allocation, the net equity exposure at the end of the year stood at approximately 15% (the Sub-Fund can hold up to 30% of equity investments), an exposure that remained very stable over the course of the year.

Composition is pretty stable and always very well diversified. During the year the portfolio benefited from some positions that performed particularly well, such as the Fidelity Global Tech fund which performed more than 40%.

As regards the bond portfolio the government component was increased and strengthened throughout the year by adding both single bonds and new collective investments. At the end of the year It represented 65% of the overall portfolio.

Our position in the NOK government bond was closed, our high yield exposure halved compared to last year.

Duration of the portfolio was slightly increased to about 1.6 at the end of December with an average rating of A. Duration has always been very short throughout the year, although higher when compared to last year.

Currency diversification was lowered during the year and now it is at about 16% with USD accounting for two thirds of this exposure.

VaR at the end of the year is at 1.7%, below the 5% limit which we aim not to surpass.

Annual Performance based on the last nav date in December is +3.49% for share class A and +4.03% for share class B.

In 2023, the performance of the Sub-Fund was:

LU2207643896 - Class A EUR: 3.49% LU1539840006 - Class B EUR: 4.03%

#### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> ANIMA REDITO E CRESCITA

BA3 Anima Reddito e Crescita is fund of funds invested in a mix of Anima OICR with a global focus. The target portfolio exhibits an allocation of 36% to long-only equity funds, both with regional and global focus, 38.5% to fixed income long-only strategies and 24% to flexible funds. The investable universe includes global and regional strategies that have different styles as well as approaches within Anima's capabilities. For instance, to build a diversified and efficient portfolio, the target allocation includes "active or Alpha" funds, low tracking error and quantitative strategies.

### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> ANIMA REDITO E CRESCITA (continued)

Regarding the net equity exposure, the activity during 2023 has been dynamic due to a challenging macroeconomic framework. The strategy began the year with a conservative positioning, approximately 21% of net exposure, to deal with a weakening scenario for the global economies. As economic momentum started to pick up early in 2023, we then began to accumulate exposure amid January, reaching a peak exposure of 40% in February. After a strong rally of equity markets, we then decided to partially take profit, bringing equity exposure to 25% in May. In the following months, the exposure was brought to neutral levels, approximately 30%, and kept it stable until the last quarter. Eventually, in the last months of the year we started to have a more positive view on equities, adding exposure up to approximately 35% of NAV.

Looking at the underlying sector allocation, the most represented industries through the invested funds are respectively Technology, Financials, Healthcare and Consumer Discretionary which account for 90.67% of the NAV. Currency exposure is mainly Euro (around 64.5% of the portfolio), and to a lesser extent US dollar (approximately 20.9%); the remaining exposure is allocated to British Pound, Yen, and Emerging currencies.

With regards to the Sub-Fund's duration, even this case the activity has been active over the year. More specifically, the strategy reached a peak exposure of 2.8 years in two occasions, June and November, whereas the least recorded exposure was 1.7 year in the beginning of January. At the end of the year the duration was brought to more neutral levels, approximately 2.43 years, to take profit from the strong reduction of bond yields. Most of the duration exposure comes from the allocation to government bonds and to a lesser extent corporate bonds. Indeed, with regards to the latter, the view has been cautious, especially on high yield credit, given the spreads levels and the tighter monetary and lending conditions.

Over the course of 2023 the Sub-Fund registered a positive performance, with a positive contribution from all asset classes, especially equity and fixed income long-only funds. Among equity funds, the most significant contributions came from two strategies that invest in the United States. Regarding the fixed income exposure, corporate bond funds had the highest impact but also government exposure was overall positive. Eventually, flexible funds also contributed positively, mostly fixed income ones and to a lesser extent flexible equity and multi-asset ones.

In 2023, the performance of the Sub-Fund was:

LU2421410080 - Class A1 EUR: 2.05% LU2421410247 - Class A2 EUR: 2.07%

#### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> FIDELITY CRESCITA EQUILIBRATA

At the end of the year the Sub-Fund manages about EUR 100 million.

The strategy returned 11.03% during the year, largely driven by the equity segment while the fixed income segment also added value. Within equities, the Fidelity Sustainable Research Enhanced US Equity UCITS ETF and Fidelity World strategy were the key contributors to performance, led by their positions in the information technology (IT) sector. The IT sector performed strongly, amid optimism around artificial intelligence (AI) theme. The Fidelity Global Dividend further enhanced gains, supported by its exposure to industrials and financials. The Fidelity European Dividend strategy and other regional strategies also supported returns. Within fixed income segment, the Fidelity Global Bond was the top contributor to returns driven by its yield component and term structure positioning. Furthermore, the Fidelity US Dollar Bonds strategy also added significant value due to its yield component and credit section. Fidelity's Euro Bond and Global Corporate Bond along with other regional strategies also proved rewarding.

### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> FIDELITY CRESCITA EQUILIBRATA (continued)

Earlier in the year, we added to equities bringing the allocation to a neutral stance in the asset class. We introduced the Fidelity European Dividend strategy to move to a neutral position in Europe. European economic activity was supported by the warmer winter and better-than-expected energy storage, while China's reopening was expected to bring upside for trade. However, positive economic surprises and persistent inflation gave the ECB room to retain its hawkish stance. We added to the Fidelity Sustainable Emerging Markets Equity strategy, in view of economic re-opening and supportive policies in China. On the other hand, the Fidelity Sustainable Research Enhanced US Equity strategy was trimmed as the view on US equities turned cautious. That said, we moved to an underweight in equities in May in view of risks to earnings outlook, and trimmed positions in the Fidelity Sustainable Emerging Markets Equity strategy and Fidelity Sustainable Research Enhanced US Equity UCITS ETF in favour of cash. The Fidelity European Dividend strategy was sold in June, as the outlook for Europe ex UK turned cautious due to faltering manufacturing activity and the ECB's hawkish stance. The Fidelity Asia Pacific Opportunities strategy was also sold. Instead, we added to Fidelity Sustainable Research Enhanced US Equity UCITS ETF as the view of US equities improved in light of resilient economic data and cooling inflation. Going into July, we added to higher-quality market segments. The Fidelity Sustainable Emerging Markets Equity strategy and Fidelity Sustainable Research Enhanced US Equity UCITS ETF were trimmed in favour of a new position in the Fidelity European Growth strategy, which has a focus on guality companies at attractive prices. However, the strategy was sold in August, and we also reduced Fidelity Sustainable Emerging Markets Equity strategy in favour of cash, reflecting our cautious stance towards risk assets in view of challenging medium-term fundamentals. As we moved overweight equities toward the end of the period, the exposure to cash and fixed income was reduced in favour of equities. During September and October, the allocation to the Fidelity Sustainable Emerging Markets Equity strategy was further reduced as the outlook for China's economic recovery weakened, despite recent policy announcements. Conversely, the Fidelity Sustainable Research Enhanced Japan Equity UCITS ETF was increased as the view for Japan was positive on the back of structural reforms, attractive valuations, and a strong macro-outlook. However, subsequently in November the position in Japan was reduced reflecting uncertainties stemming from elevated inflation coupled with weak private consumption remained weak and lower business spending. In October, a new position in the Fidelity European Dividend strategy, which has a focus on income producing equities, was introduced. The allocation to the Fidelity Sustainable Research Enhanced US Equity UCITS ETF strategy was increased during November over strong economic data and robust corporate earnings in the US.

The fixed income exposure was also adjusted against an uncertain market backdrop. The allocation to Fidelity Global Corporate Bond and Euro Bond strategies was reduced in February as we reduced duration and credit following significant tightening in credit spreads. The cash exposure was reduced in favour the Fidelity US Dollar Bond strategy in March to add duration to the portfolio. In April, we also reduced the Fidelity Asian Bonds strategy as credit spreads tightened significantly for the asset class. Instead, we added to high-quality focused Fidelity's Global Bond and US Dollar Bond strategies, reflecting our preference for investment grade and government bonds to maintain a defensive positioning. The Fidelity Asian Bonds strategy and the cash exposure were reduced in favour of the Fidelity US Dollar Bond strategy was added in October added amid concerns about sticky inflation and allocation to Global Corporate Bond strategies were reduced in November. Meanwhile, positions in Fidelity's Global Bond, US dollar Bond and Euro Bond strategies were reduced in October and November. The allocation in US Dollar Bond fund was switched to Global Bond fund in the month of December.

In 2023, the performance of the Sub-Fund was:

LU2207643110 - Class A1 EUR: 8.25% LU2207643201 - Class A2 EUR: 8.25% LU2207643383 - Class B EUR: 9.34%

### BA<sup>3</sup> Strategic Investment Sicav - Firmitudo Flexible Strategy

At the end of December, the Sub-Fund is invested for about 98% of NAV with a duration of approximately 2.5 and an implied yield to maturity of around 4.8%.

As regards the bond component of the portfolio, during the year the government component was increased to the detriment of the corporate component which was reduced, especially the lower quality credit. Thus the Dufry, Rakuten, Pemex, IVS and Intrum bonds were sold. New additions were instead corporate bonds that we believed offered an excellent risk-return profile such as Intesa 9.125% Perp.; Enel 6.375% perp and ZKB 4.467% 2027.

We think peak bond yields have been likely reached and We continue investing with a focus on high-quality credit.

At the end of December, the equity exposure of the Sub-Fund is at about 6% and always quite diversified in terms of sectors and geographies. This exposure has been pretty stable throughout of the year. In some circumstances as a partial hedge we tactically traded some put options on Eurostoxx 50.

During the year we closed with a profit the holdings in Scor, Accor and Leonardo while we trimmed our position in Engie and Unicredit after their excellent performance.

At the end of the year, liquidity is at about 2% while Total assets are EUR 16.2 million.

In 2023, the performance of the Sub-Fund was:

LU0522615623 - Class A EUR: 6.17% LU1539840345 - Class B EUR: 6.62%

#### **BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> INVESCO REDDITO**

#### Market Overview

Economic indicators, during the year, suggested global growth in aggregate remained quite stable, while in the last few months of 2023, emerged a cyclical divergence in favor of developed markets outside the US, while the United States decelerated below the long term trend growth. In the US, consumer sentiment and business surveys are now soft while the same sectors are experiencing improving momentum in Europe where the inventory cycle is pointing to rising production expectations and improving demand. Similarly, incoming data from China and the rest of Asia is showing positive cyclical momentum, with improvements in business surveys and industrial production, while property markets have stabilized, albeit at weak levels. The last quarter of 2023 ended with a powerful recovery in asset prices, driven by a goldilocks backdrop of weak-but-stable growth, rapidly falling inflation and central banks not only signaling the end of the tightening cycle but, importantly, acknowledging the potential for rate cuts over the course of 2024.

#### Portfolio Performance:

The strategy during the year performed well, ending the period up +7.78% net of fees as of December 29th. Both fixed income and equity components brought a positive contribution in the year, but the latter was the major driver for performance in absolute terms during the period.

Looking at the top portfolio contributors, at the end of the year, the Invesco EQQQ Nasdaq 100 UCITS ETF was the major absolute contributor, roughly 166bps, followed by the Invesco MSCI Europe UCITS ETF and the Invesco Global Total Return Eur Bond fund, with an absolute contribution of 82bps and 78bps respectively.

Among the weakest contributors over the period, looking at Funds and ETFs, there were the Invesco Belt and Road debt Fund (-28bps), the Invesco S&P 500 Low Volatility UCITS ETF (-32bps) and the Invesco US Treasury Bond 10+ Year UCITS ETF Hedged EUR (-10bps).

### Investment Management Report (continued)

#### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> INVESCO REDDITO (continued)

#### Portfolio Activity:

The strategy was managed quite actively during the year, following our views of Tactical Asset Allocation, rebalanced on monthly basis. During the year the strategy switched from a more defensive to a cyclical tilt. In terms of manager selection the year didn't see any particular change, a part from the gradual reduction and closure of the position in the Invesco Belt and Road debt Fund. With yields fast raising during 2022 and 2023, our carry preference in terms of risk adjusted returns was diversified between the more volatile emerging debt and broader diversified high yield and Investment grade selection, done through ETFs like the Invesco Global High Yield Corporate Bond ESG UCITS ETF and funds like the Invesco Global total return EUR bond fund and the Invesco Euro Corporate Bond fund. In the equity space the Invesco EQQQ Nasdaq 100 UCITS ETF, INVESCO S&P 500 LOW VOLATILITY UCITS ETF, Invesco S&P 500 High Dividend Low Volatility UCITS ETF, Invesco S&P 500 Equal Weight UCITS ETF were actively used during to characterize the strategy with the desired factor exposure in US equity.

In 2023, the performance of the Sub-Fund was:

LU2207642906 - Class A EUR: 6.61% LU2472599708 - Class A1 EUR: 1.96% (Launched December 12, 2023) LU2207643037 - Class B EUR: 7.78%

#### **BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> JPMORGAN CEDOLA**

#### Market Overview

2023 proved to be a year of unexpected twists and turns, as investors were challenged by aggressive policy tightening, elevated bond market volatility, a banking crisis, and heightened geopolitical tensions in the Middle East. Throughout the year, market sentiment was shifting even more than usual, bouncing from recession and growth concerns at the start of the year, to resilient growth over the summer, to higher-for-longer in the autumn, and ending the year focused on future rate cuts. Despite these headwinds over the year, a resilient global economy and less hawkish central banks have led to positive returns across all major asset classes. Increasing hopes for a soft-landing and AI enthusiasm pushed equities higher, while the prospect of rate cuts in 2024 have fueled a rally in the bond market.

Equity markets delivered strong returns in 2023, with the MSCI World Index returning 24% in local currency terms, although the rally has been very concentrated and dividend stocks have yet to catch up as evidenced by the return differential of almost 15% between the MSCI World Index and its High Dividend counterpart, given the MSCI World High Dividend Index returned 9% in local currency terms over the year. Performance varied across regions, with developed markets, led by the U.S., significantly outperforming emerging markets. Within equity markets the majority of the move higher was concentrated in a small sub-set of names. Growth stocks in particular bounced back strongly, in part driven by an increasingly positive outlook for artificial intelligence (AI). In fact, the 'Magnificent Seven' stocks contributed to around 80% of the S&P 500 index returns over the year, while returns outside of these technology stocks were much more muted.

Within fixed income, 2023 has brought continued volatility, with the 10-year US Treasury yield trading in a range of 3.3%-5.0%. Rates moved higher throughout the year, hitting the highest level in 15 years in October, before reversing sharply through the final months of the year on expectations of Central Bank cuts in 2024. Global fixed income returns were positive over the year, with the Bloomberg Global Aggregate Index (local currency) returning 5.7% in 2023.

Outside of core bonds, credit markets delivered strong returns through the year, benefiting from tighter spreads and more recently the strong rally in rates. High Yield corporate credit was one of the best performing asset classes, as stable corporate balance sheets and supply pressures from a decline in new bond issuances kept the asset class buoyant.

#### Investment Management Report (continued)

#### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> JPMORGAN CEDOLA (continued)

Updates to our outlook during the period:

While previously we expected a sub-trend global growth, we now see a close to trend global growth characterized by the continuation of an asynchronous cycle and less restrictive financial conditions — an environment that we believe will be generally supportive of stocks and bonds. We remain increasingly confident that the Fed Funds rate has reached its peak for the cycle and see room for cuts as inflation and growth decelerate close to trend going forward. In the Euro Area, we expect growth to stabilize and see scope for a modest pickup. To that end, we turned more positive on global equities, albeit with a reduced preference for emerging market equities due to lack of clear catalysts for a rebound. We continue to maintain a constructive view on duration which apart from the anticipated monetary easing environment expected ahead, could also provide downside protection should growth disappoint, and continue to find pockets of opportunity across the credit space.

Changes in positioning during the period:

In terms of our positioning, we slightly reduced our overall equity exposure throughout the first half of the year as we were more conservative on the asset class but have added some risk back into the portfolio towards the end of the review period on the back of our increased conviction in equities as a whole. On a regional basis, we made some tactical changes to the portfolio; we added to our US allocation at the margin via the JPM US Equity Income Fund at the very beginning of the year but later on reduced our exposure more meaningfully and used the proceeds from this trade to add to our Emerging Market allocation instead via the JPM US Equity Income Fund over February. We added some of our US exposure back in September via the JPM US Equity Income Fund whilst reducing our allocations to Emerging Markets and European equities via the JPM Emerging Markets Dividend and Europe Strategic Dividend Funds in the same magnitude.

Within fixed income, we broadly maintained the duration profile of the portfolio over the review period. We slightly reduced our allocation to the JPM Income Fund. We added to our investment grade corporates exposure over February via the JPM Global Corporate Bond Fund and also closed out our long US 2-year government bond futures position whilst simultaneously closing out our short US 10-year position. Lastly, we re-opened our positions across US 2-year and 10-year government bond futures at the beginning of March through short US 2-year and long US 10-year futures positions however we closed these out towards the end of the month.

With regards to our hybrids exposure, we added to our multi-asset allocation via the JPM Global Income Fund over February.

Performance attribution for the period:

The portfolio delivered a positive return of 5.5% over the review period, as our equity, fixed income and hybrids allocations positively contributed to overall returns.

Tactical asset allocation detracted from relative performance, driven by the higher duration profile of the portfolio and our lower exposure to equities.

Security selection also negatively contributed to relative returns, mostly driven by our Global Income and Global Income Conservative holdings.

Current market outlook and investment plan:

As central banks move from hiking to cutting in 2024, we expect both stocks and bonds to benefit. We remain increasingly confident that the Fed Funds rate has reached its peak for the cycle and following its dovish tilt in its December meet, we see room for cuts as inflation and growth decelerate going forward. We also continue to see some

### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> JPMORGAN CEDOLA (continued)

further upside in equities from current levels on the back of mid-single-digit earnings growth and stable valuations expected next year. Amid receding inflation, stock-bond correlations should eventually fall towards neutral levels – improving the diversification potential in multi-asset portfolios as bonds act as a diversifier in case of adverse growth shocks, thus forming our constructive stance on duration. We also prefer high-quality carry in credit in an anticipated lackluster but non-recessionary environment. For the time being, close to trend growth and less restrictive policy are supportive for asset returns in the first half of 2024.

In 2023, the performance of the Sub-Fund was:

LU2207642732 - Class A EUR: 3.74% LU2472599617 - Class A1 EUR: 5.27% (Launched November 6, 2023) LU2207642815 - Class B EUR: 4.88%

### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> PICTET CRESCITA DINAMICA

Financial Environment:

During the year 2023, financial markets have faced a high degree of uncertainty due to conflicting signals from macro data and central bank actions. The global economy man-aged to avoid a recession, and inflationary pressures gradually eased. However, the prevailing view during most of the peri-od was that global economies would start feeling the impact of ongoing tighter monetary policies, resulting in slower growth.

Business cycle indicators, such as slowing consumption data in the US, a decline in US households' excess savings, and suggestions of potential falls in US private sector capital spending, supported modest growth in developed economies. Other indicators pointed to significant strength in emerging markets, excluding China, where the economy remained depressed due to a weak property sector and modest government stimulus that dampened domestic consumption. Europe's resurgence has been slow due to high borrowing costs and rising wages that could impact profit margins.

Recent tensions in the Middle East, particularly the conflict in Gaza, combined with the ongoing Ukraine-Russian war, continuously reminded investors of the potential for geopolitical crises to further impact financial markets.

As a result, bonds and equities struggled to find a clear direction until mid-October when confidence in central bank efforts to control inflation and avoid a severe economic downturn was boosted. This triggered downside pressure on yield curves and fueled a December equity and bond rally.

Until then, equities were generally considered vulnerable, with a concentration of strong performances in only a few mega-tech stocks. Artificial intelligence (AI) attracted attention as the next tech factor potentially boosting future results. In the broader market, corporate earnings remained lower than the previous year. Quality companies with high profitability, good earnings visibility, and low leverage in this uncertain low-growth environment performed well. Information Technology, Communication Services, and lately Financial sectors have attracted significant investor inflows.

Performance:

Strategies

The Sub-Fund, a combination of a Dynamic and a Conservative strategy, posted a gross performance of +16.3% during 2023, slightly better than its target represented by a mix of the MSCI AC world index and the JPM European Government bonds index (+15.4%).

### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> PICTET CRESCITA DINAMICA (continued)

The Dynamic strategy (+19.9%), a mix of a Thematic and a Defensive portfolio, outperformed the MSCI AC world index (+18.3%). Both the Thematic (+20.5% performance) and the Defensive (+19.3% performance) strategies contributed similarly to the performance of the portfolio, +705 bps and + 719 bps respectively. From a sectorial point of view, Information Technology (+45.0%) and Consumer Discretionary (+23.6%), gain the most during the year. Information Technology (+645 bps) alone contributed to almost half of the total contribution of the Dynamic (+1424 bps) strategy. The three best stock contributors were Microsoft Corp (Information Technology, +49 bps), Shin-Etsu Chemical (Materials, +45 bps) and Salesforce Inc (Information Technology +44 bps).

The Conservative strategy (+7.2%), a mix of a passive government bonds portfolio and an absolute return fund, was in line with the JPM European Government bonds index (+7.0%). The MAGO strategy (+8.4%) posted a better performance of the Bond strategy (+5.9%).

#### Tactical Asset Allocation

The geopolitical vulnerabilities and economic conditions that prevailed in 2023 influenced our conservative allocation positioning, keeping a slightly underweight allocation compared to the strategy weights and favoring marginally the defensive portfolio over the period.

#### 2024 Outlook

In 2024, the global investment landscape faces challenges with slower eco-nomic growth, persistent inflation, and geopolitical risks. Developed economies experience stagnating growth, rising unemployment, and inflation above central bank targets. A recession is unlikely, and the absence of market bubbles suggests a downturn may not trigger a negative feedback cycle. Emerging market economies, particularly China, are expected to outpace the developed world.

Equity returns are projected to be lackluster, with global equity returns estimated at around 5%, down from double digits in 2023. European equities are expected to outperform the US due to depressed valuations. Bonds are anticipated to perform better as inflation decreases and central banks initiate easing cycles.

The global economy has experienced a significant shift, with inflation declining and central banks expected to cut interest rates. This has led to a reflation trade across asset markets, but caution is advised as investors may be overly optimistic, and year-end market dynamics could distort prices. US eco-nomic growth is unlikely to regain leadership among developed economies soon.

Equities are considered relatively expensive, particularly in the US, where the equity risk premium is at a multi-year low. Corporate earnings growth is expected to be lower than consensus forecasts, impacting the attractiveness of equities. Bonds offer value in the longer term but may be slightly over-bought due to recent rallies. Technical indicators score neutral for both equities and bonds.

The recommended asset allocation is to keep a neutral stance between the Dynamic and the Conservative strategies.

At the end of the year the Sub-Fund manages about EUR 132.5 million.

In 2023, the performance of the Sub-Fund was:

LU2207643466 - Class A EUR: 13.62% LU2207643623 - Class B EUR: 15.06%

### Investment Management Report (continued)

### **BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> PIMCO DIFESA**

After a very challenging year for fixed income markets in 2022, as interest rates and credit spreads sold off in tandem, 2023 offered fixed income investors a more supportive market environment overall, despite several bouts of volatility during the year. Government bond yields generally ended the year lower and credit spreads tightened. This was especially true in the last quarter of the year, as benign inflation prints increased investors' confidence in a soft landing, and brought forward the expected timing of future rate cuts by central banks, resulting in a strong rally across asset classes to end the year. Coming into the year, many analysts were calling for a global recession given the rapid increase in rates, and the consensus view was that risk assets would struggle in a slower growth and higher yield environment. Nevertheless, the global economy remained quite resilient and most equity markets experienced stellar returns. Over the course of the year, central bank policy and inflation remained a primary focus area for investors, amid the potential end of the rate hike cycle and receding inflation. Other major market drivers included the US regional bank crisis, UBS's acquisition of Credit Suisse, Fitch's downgrade of the US government's credit rating, and the emergence of A.I.. On monetary policy, central banks largely continued the theme of 2022 where controlling inflation remained the priority over the risk of reducing economic growth. The US Federal Reserve continued its monetary policy tightening with the upper end of the Fed Funds target range moving from 4.50% to 5.50% over the first half of the year. More recently the Fed has indicated that rates have likely peaked, communicating that cuts are on the cards in 2024 given inflation continues to moderate. Having been behind the Fed in raising rates, the European Central Bank hiked its deposit rate from 2.00% to 4.00%.

Against this backdrop, Banca Aletti PIMCO Difesa continued to deliver on its objectives over the course of 2023. The Sub-Fund, which aims to generate a positive return net of fees, provided a robustly positive performance over the year, delivering a return of +3.99%, net of PIMCO fees. The strategy delivered positive returns across the quarters, by returning a performance of +0.63% (net of PIMCO fees) in Q1, when the bond markets were challenged by the risk of a global recession. The Sub-Fund registered a performance of +0.15% (net of PIMCO fees) in Q2, before providing significantly positive returns (net of PIMCO fees) of +1.17% in Q3 and +1.98% in Q4, in the wake of the strong yields rally which importantly fell in the last months of the year. The portfolio's 2023 performance was mainly driven by the below factors:

#### Contributors:

- Holdings of investment grade corporate credit (mainly senior financials), as spreads tightened
- Exposure to senior tranches of selected securitized issues
- Tactical positioning to European duration through both core (France) and peripherals countries (Italy)
- Tactical positioning to UK duration

#### Detractors:

- Short exposure to the German and Japanese duration, as the yields fell
- Exposure to the spread component of Danish covered bonds, as spreads widened
- Long exposure to Italian Inflation Linked Bonds (ILBs), as breakeven inflation levels fell

During the year, the duration of the Sub-Fund floated in the range from 0.65 to 1.43 years, by reaching the peak in September and the trough in December, following the strong yields rally at the end of the year. The Sub-Fund mainly held a long position to the duration of US, France, Italy and Denmark. The short position to the Japanese duration was maintained throughout the year, whereas the short position to the German duration turned to positive values in February and June. As of the December 31st, the strategy holds 0.65 years of duration focused on Denmark (0.41 years deriving from Danish covered bond positions), Italy (0.38 years), France (0.24 years), and the US (0.08 years) whilst being short German duration (-0.72 years). The portfolio sensitivity to the credit spreads (as measured by the market weighted spread) gradually decreased during the year, from 2.43 years in January to 1.26 years in December, through a reduction

### Investment Management Report (continued)

#### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> PIMCO DIFESA (continued)

in the exposure to the corporate sectors (both the Investment Grade and the High Yield). As of December 31st, in terms of sectors, the portfolio's cash bond investments include ~31% in Government and Government related securities, ~22% in IG credit, ~20% in covered bonds (primarily consisting of IG rated Danish covered bonds), ~11% in Inflation Linked Bonds, 9% in securitized (primarily European asset backed securities), ~1% in HY Credit, ~1% in Emerging Markets Bonds and the remainder in Cash and Cash Equivalents.

This results in a portfolio holding a yield to maturity of 4.19% (in EUR terms), 0.65 years of duration and an average rating of A+ (as of December 31st).

In 2023, the performance of the Sub-Fund was:

LU2207642575 - Class A EUR: 3.78% LU2207642658 - Class B EUR: 4.09%

#### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> ROBECO CRESCITA SOSTENIBILE

#### Market review and developments

Investors entered 2023 with a lot of trepidation about potential macro shocks and the potential downside risks from a higher interest rate environment the first part of the year these concerns seem to be well founded. After the collapse of Silicon Valley Bank, the Swiss government essentially forced through a shotgun wedding between stricken bank Credit Suisse by rival UBS amid fears that a failure to protect depositors would trigger a new global banking crisis. The availability of loans for small businesses had also started to deteriorate and there has been a slowdown in lending to commercial and industrial companies. However, a strong US earnings season, particularly in the tech sector was supportive in moving market sentiment into a more positive state. In particular, the AI theme generated over 2.5 trillion USD of market cap for the whole year. This very narrow market did make for a tough environment for more diversified active investors.

As we moved into the second part of the year, there was increasing evidence to suggest that a higher interest rate policy was finally having a cooling impact on inflation. This was coupled by relatively strong economic data and job figures, suggesting that the rate rises were not necessarily going to translate to a hard landing and a painful recession. Over the course of the summer months, the market really struggled for direction. Every single comment from central banks was scrutinised in extreme detail to try and extrapolate more guidance on the future direction of interest rate policy. The knock on effect was that volatility really jumped up to some quite extreme levels. For instance, there was a severe sell-off in small and mid-cap equities in the month of October – following speculation that we could see further rate rises at the end of 2023. This was fueled by better than expected US economic announcements. Even the 'magnificent seven' Artificial Intelligence focused-stocks seemed to be losing some of their swagger from earlier in the year.

On the face of it, a punishing autumn seemed to be evolving into a winter chill for investors. However, as the old adage goes, 'markets can turn on a dime' as an unexpectedly dovish November update on interest rate policy by the Federal Reserve was the catalyst for a whipsaw in sentiment. This was affirmed by the VIX falling to the lowest level since before the pandemic and widespread rejoice that the much yearned for 'end of the rate hike' cycle had finally arrived. Markets continued to push forward at full steam over December, with the added bonus of a 'Santa rally' offering investors a generous final gift for the year. Stocks and bonds continued to rip higher after the Federal Reserve dropped its biggest hint that rate cuts could come as early as next spring. Surprisingly it also implicated that rising unemployment is no longer a necessary condition for the Fed to start the cutting cycle.

### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> ROBECO CRESCITA SOSTENIBILE (continued)

This has culminated in the US stock market touching all-time highs. While it might be a stretch to suggest major asset classes are priced to perfection, they are certainly vulnerable to downside risk if news disappoints. This comes at the heels of the market fully embracing the soft landing scenario. Fear of a recession in the coming months has almost fully dissipated.

#### Fund Performance

Over the reporting period, Robeco Crescita Sostenibile generated a return of 10.2% (gross of fees in EUR), against a return of 12.0% for its reference index, 50% MSCI World (in EUR) and 50% Bloomberg Global Aggregate (hedged to EUR). The Sub-Fund started the year neutral from an overall risk perspective. There was a slight overweight in credit and high yield, but this was offset by a lower beta on the equity side. Positioning in Q1 reflected the fear of downside risks from negative macro shocks and the Sub-Fund momentarily moved to underweight equity over March, before reverting to neutral in April. This risk-off move slightly detracted from performance. Likewise, the Sub-Fund slightly moved to underweight equites at the end of September and then moved back to neutral a month later. This time the tactical move supported performance, due to a strong sell-off in equities over October.

Elsewhere, a small overweight in emerging market equities for most of the year detracted from performance. Overall asset allocation was marginally negative. Nonetheless, security selection accounted for the vast majority of underperformance in 2023. In particular, the impact driven thematic art.9 equity funds underperformed the equity market significantly. It suffered from a strong sell-off in mid-caps and underperforming stock selection. Security selection in the rest of the portfolio was broadly neutral.

#### Outlook

Almost all major asset classes delivered a positive return this year. Just looking at the performances the conclusion might be that it has been an easy year for financial markets, but it surely wasn't. When looking forward into the next year we think it will be even harder. As we will not only have to navigate through an uncertain economic environment, but we will also need to deal with a higher degree of political uncertainty as several countries are heading toward elections. The one that of course will be closely followed is the presidential US election.

We remain in the unpopular camp that still expects a recession in the coming 12 months. If we are right, then bond yields should move even lower, and current levels are a buy. However, we think in the short run the economy might be more resilient than the market currently anticipates. Also, there are signs that in the short run, inflation could decelerate less quickly than currently is expected. Thus, we believe the market currently underestimates growth and is too sanguine on inflation. We think the market has moved too far ahead, creating a window for some upward pressure on rates to build. Our goal is to use this to add to our bond exposure.

The equity markets continue to be fierce believers in the soft landing. This ties the faith of the equity markets firmly to the faith of the bond market. If yields meander, equities will be supported. Lower inflation however is a two-edged sword for equities; on the one hand, lower inflation allows for lower yields which opens the door for multiples to expand. But on the other hand, lower inflation impacts the revenues of companies, meaning that all the heavy lifting will need to come from margins, and we doubt that these will be able to live up to the high expectations. Our intentions remain to lower our equity weight, but we are currently not willing to go against market momentum and prefer to sit at the sidelines.

Due to the different mandates of the Fed and the ECB and given current inflation dynamics, we don't expect the ECB to cut earlier than the Fed. We expect this to provide some support for the euro. A weaker US dollar will be supportive for our overweight in emerging markets equities at the expense of developed markets equities. This is a position we continue to believe in due to compelling valuation in favor of emerging market equities.

In 2023, the performance of the Sub-Fund was:

LU2421409314 - Class A1 EUR: 6.82% LU2421409405 - Class A2 EUR: 6.83% LU2421409587 - Class B EUR: 7.75%

#### **BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> UBS CRESCITA ASIA**

#### Market environment

The global market environment during the period in review was characterised by a tapestry of challenges and opportunities, with the US regional banking crisis, artificial intelligence optimism, and monetary policy shifts as key events. Developed markets outperformed emerging markets in 2023, as strong returns by AI related markets like South Korea and Taiwan were weighed down by the lagging Chinese market. Performance in China started the year strong as optimism bloomed over the reopening from zero-COVID policies, but the rest of the year generally saw disappointment in Chinese economic data, particularly in the property sector, weighing on the economic recovery. Weak consumer sentiment in China was a key headwind weighing on risk assets, with equity softness also see in other Asian markets at times during the year. Officials increased efforts to boost growth through several monetary and fiscal policy actions and Chinese economic data showed potential sings of stabilization and improvement coming into year end, although the property sector remained a headwind. The final two months of the year proved positive for risk sentiment, as the US Federal Reserve signalled a dovish pivot and caused a global market rally in both stocks and bonds. This resulted in a majority of Asian market to outperform, with China as the only laggard – given concerns over a lack of future stimulus by the government. Taiwan and South Korea benefited into year-end on the back of strength in technology stocks. India was a standout market over the year, building upon its positive performance in 2022, given political stability, better-than-expected economic growth, and stable corporate earnings.

#### Performance review

The performance for BA<sup>3</sup> UBS Crescita Asia A1 Cap EUR was negative in 2023, down -3.7%, while performance is down -10.4% since launch on 25th March 2022.

Performance in 2023 was negative, as allocations to Asia contributed positively to performance, while allocations to China lagged broad Asia – contributing to negative performance. Within Asia, both equities and credit contributed positively, with Asian ex Japan equities and Asian investment grade credit as top contributors. Asian high yield was the only detractor within the Asian credit exposures, while ma Asian equities and bonds performed as well. Within China, fixed income performance was flat, while equities were the main negative detractor. Within Chinese equities, broad China exposure was the main negative contributor, while more direct onshore and offshore exposures both detracted.

#### Outlook

Our base case remains a global soft landing for the global economy, as we expect global equities to reach new highs in 2024, although it is unclear whether longer-term developed market bond yields have further to fall given the sharp moves we saw in Q4 2024. This global backdrop should be positive for EM equities, especially the rate sensitive Asian markets. However, we remain cautious over the outlook for China over the tactical horizon, and look for specific signposts to increase our conviction. Investor sentiment on Chinese assets is already on the weaker side and the valuations remain at historically low levels and from these levels, the forward looking returns are typically quite attractive although we do wait for improvement in the macro outlook.. The upside case from here could arise from a normalization in consumption,

### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> UBS CRESCITA ASIA (continued)

in conjunction with an assertive stance of policymakers. At the same time, given the bearishness of investor sentiment and existing valuations, we believe there is a reasonable margin of safety against any downside scenario from here. More broadly, we do acknowledge the risks facing China in the near term and cannot predict when a reversion could occur. Macro stabilization from activity data over a number of months would be a positive signal, as it could lead to a sustainable upward revision in corporate earnings and a consistent positive message in macro and micro data. Little escalation in tension US-China geopolitical risks, going into the US election and Taiwan elections, would also be a positive.

Asia remains attractive as we move into 2024, given the expectations for lower policy rates around the globe. There remains an attractive growth opportunity and we continue to look for opportunities across the portfolio. Inflation in Asia has been trending lower and steadily moving back toward central banks' comfort zones, offering headroom for policymakers in Asia to cut interest rates in 2024, alongside the US Federal Reserve. Economic growth for the region as a whole should now be at the turning point after finding a bottom. A potential global manufacturing revival would also benefit the region, with South Korea's industrial production and exports data continuing to surprise to the upside and manufacturing indicators have gradually recovered in recent months. Elsewhere, India's economy has continued to produce robust broad-based momentum supported by cyclical and structural tailwinds, while the macroeconomic environment in Indonesia remains stable given well-supported domestic demand and a healthy commodities trade surplus.

In 2023, the performance of the Sub-Fund was:

LU2421409660 - Class A1 EUR: -3.72% LU2421409744 - Class A2 EUR: -3.71% LU2421409827 - Class B EUR: -2.80%

#### BA<sup>3</sup> Strategic Investment Sicav - BA<sup>3</sup> ALETTI OBBLIGAZIONARIO ATTIVO 3

Newly launched Sub-Fund which started investment activity in December. This is an actively managed fixed income solution with the aim of outperforming the euro bond market over a 3 year time horizon.

The Sub-Fund is mainly focused on the euro denominated government bond market but may also invest in the corporate sector up to 50%. Duration will usually be managed in a range between 3 and 5.

At the end of December the Sub-Fund has reached the threshold of EUR 42 million in assets under management.

In 2023, the performance of the Sub-Fund was:

LU2421409660 - Class A1 EUR: 0.84% LU2421409744 - Class A2 EUR: 0.84% LU2421409827 - Class B EUR: 0.87%

# Independent auditor's report

To the Shareholders of BA<sup>3</sup> STRATEGIC INVESTMENT SICAV 35a, Avenue John F Kennedy L-1855 Luxembourg

### Opinion

We have audited the financial statements of BA<sup>3</sup> STRATEGIC INVESTMENT SICAV (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments as at December 31, 2023 and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at December 31, 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### **Basis for opinion**

We conducted our audit in accordance with the Law of July 23, 2016, on the audit profession (the "Law of July 23, 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of July 23, 2016, and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

# Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

# Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016, and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016, and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis
  of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to
  events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to
  continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw
  attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial
  statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on
  the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However,
  future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going
  concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Notes to the financial statements as at December 31, 2023

#### Note 1 - General information

BA<sup>3</sup> STRATEGIC INVESTMENT SICAV (hereafter the "Fund") is an open-ended investment company with variable capital, incorporated in the Grand Duchy of Luxembourg as a "Société Anonyme" on the basis of the law of 10 August 1915 on Commercial Companies as amended (the "law of 1915") and qualifies as a "Société d'Investissement à Capital Variable" ("SICAV") on the basis of part I of the Law of 2010 on undertakings for collective investments, as amended. The Fund was formerly known as STRATEGIC INVESTMENT SICAV and initially as BPVN Strategic Investment Fund. It was established on December 7, 1988 for an undetermined duration from the date of incorporation.

The Fund is structured to provide to investors a variety of different portfolios ("Sub-Funds") of specific assets in various Reference Currencies. This "umbrella" structure enables investors to select from a range of Sub-Funds, the Sub-Fund(s) which best suit their individual requirements and thus make their own strategic allocation by combining holdings in various Sub-Funds of their own choosing. Each such Sub-Fund is designated by a generic name.

Further, the Shares of each Sub-Fund may, as the Board of Directors determine from time to time, be issued in one or more Classes of Shares, whose assets is commonly invested pursuant to a specific investment policy of the respective Sub-Fund, but where a specific sales and redemption charge structure, fee structure, distribution policy, hedging policy, Reference Currency or other specificity is applied to each such Class. The Directors may at any time create additional Sub-Funds and/or Classes.

The main objective of the Fund and its Sub-Funds is to provide investors with an opportunity to participate in a professionally managed portfolio to achieve long-term capital growth, paying due attention to regular capitalisation of income, stability of value and high liquidity of assets.

The specific investment policy of each Sub-Fund is set out in the Prospectus.

The Fund aims to provide subscribers with a choice of Sub-Funds investing in a wide range of transferable securities, investment funds and money market instruments and featuring a diverse array of investment objectives.

The Fund shall always comply with the limits set forth in section "Investment Restrictions" of the Prospectus. In addition, for the purpose of efficient portfolio management, in order to enhance the investment objective and/or as a matter of hedging strategies, the Board of Directors may, for each Sub-Fund, make use of techniques and instruments as detailed in section "Risk Management" of the Prospectus.

The Board of Directors is authorised, without limitation and at any time, to issue additional shares at the Net Asset Value per share determined in accordance with the provisions of the Articles, without reserving to existing shareholders a preferential right to subscribe for the shares to be issued.

The Board of Directors may further decide to issue within the same Sub-Fund or Class, two categories of shares where one category is represented by accumulating shares which shall not be entitled to any dividend payments and the second category by distributing shares which shall be entitled to dividend payments.

All shares are issued, fully paid and have no par value. Each share carries one vote.

The Company only issues uncertificated registered shares.

The Shares are transferable without restriction unless the Board of Directors has restricted ownership of the Shares to specific persons or organisations.

The Board of Directors may decide to list the Shares of the Sub-Funds or Classes, as and when issued, on the Luxembourg Stock Exchange. As at December 31, 2023 none of the Sub-Funds' classes are listed in any stock exchange.

#### Notes to the financial statements as at December 31, 2023 (continued)

#### Note 1 - General information (continued)

As at December 31, 2023, the following Sub-Funds are active:

- BA<sup>3</sup> Strategic Investment Sicav BA<sup>3</sup> ALETTI OBBLIGAZIONARIO ATTIVO 3, expressed in EUR (launched on December 7, 2023)

#### Note 2 – Significant accounting policies

#### 2.1 Presentation of the financial statements

The financial statements are prepared in accordance with the Luxembourg legal and regulatory requirements relating to investment funds under the going concern basis of accounting.

#### 2.2 Valuation of Investments

The net asset value is calculated in accordance with the following principles:

- Securities admitted to official listing on a stock exchange or traded on another regulated market which operates regularly and is recognized and open to the public within Europe, North or South America, Asia, Australia, New-Zealand or Africa are valued on the base of the last known sales price. If the same security is quoted on different markets, the quotation of the main market for this security is used. If there is no relevant quotation or if the quotations are not representative of the fair value, the evaluation is done in good faith by the Board of Directors or its delegate with a view to establishing the probable sales price for such securities;
- non-listed securities are valued on the basis of their probable sales price as determined in good faith by the Board of Directors and its delegate;
- liquid assets are valued at their nominal value plus accrued interest;
- units or shares in other UCITS or UCIs are valued on the basis of their latest available net asset value;

#### Notes to the financial statements as at December 31, 2023 (continued)

#### Note 2 – Significant accounting policies (continued)

#### 2.2 Valuation of Investments (continued)

- the liquidating value of future, spot, forward or option contracts not traded on stock exchanges nor on other Regulated Markets mean their net liquidating value determined, pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts. The liquidating value of future, spot, forward or option contracts traded on stock exchanges or on other Regulated Markets is based upon the last available settlement prices of these contracts on stock exchanges and Regulated Markets on which the particular future, spot, forward or option contracts are traded by the Sub-Fund; provided that if a future, spot, forward or option contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors may deem fair and reasonable. Swaps are valued at their fair market value.

For the assets which are not denominated in EUR, the conversion is done on the basis of the closing exchange rate for such currency on the Valuation Date.

In the event it is impossible or incorrect to carry out a valuation in accordance with the above rules owing to particular circumstances, such as hidden credit risk, the Board of Directors or the Central Administration Agent is entitled to use other generally recognised valuation principles, which can be examined by an auditor, in order to reach a proper valuation of the Sub-Funds' total assets.

#### 2.3 Combined financial statements

The various items in the financial statements of each Sub-Fund are kept in the reference currency of the Sub-Fund.

The combined statements are presented in EUR and correspond to the sum of the various items of each Sub-Fund converted if necessary with the exchange rate prevailing on the closing date.

#### 2.4 Dividend and interest income

Dividend income is accounted for on an ex-dividend basis, net of withholding tax. Interest income is recognised on an accrual basis, net of withholding tax.

#### 2.5 Foreign currency translation

The net assets as well as the market value of the investments in securities expressed in currencies other than EUR are converted into EUR at the exchange rate prevailing at the balance sheet date.

Income and expenses expressed in currencies other than EUR are converted into EUR at the prevailing exchange rate at transaction date.

Gain or loss on foreign currencies is included in the Statement of operations and changes in net assets.

The cost of securities denominated in currencies other than EUR is converted at the exchange rate prevailing at the date of acquisition.

#### 2.6 Realised gains and losses on sale of investments in securities

Investments are initially recognised at cost, which is the amount paid for the acquisition of securities, including transaction costs. Realised gains or losses arising on disposal of investments are determined on the basis of the average cost of investment sold and are recognised in the Statement of operations and changes in net assets.

#### 2.7 Future contracts

Future contracts provide for the delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instrument at a specific date in the future. Upon entering into a future contract, the Fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the Fund periodically and are based on changes in the market value of open future contracts.

Outstanding future contracts are valued by reference to the last available settlement price on the relevant market. Outstanding future contracts as at year-end are disclosed in Note 14.

#### Notes to the financial statements as at December 31, 2023 (continued)

#### Note 2 – Significant accounting policies (continued)

#### 2.8 Forward foreign exchange contracts

Forward foreign exchange contracts represent obligation to purchase or sell foreign currency on a specified future date at a price fixed at the time the contracts are entered into. Non-deliverable forward foreign exchange contracts are settled with the counterparty in cash without the delivery of foreign currency. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until contract settlement date. When the forward foreign exchange contract is closed, the Fund records a realized gain or loss to the difference between the value at the time the contract was opened and the value at the time it was closed.

Outstanding forward foreign exchange contracts as at year-end are disclosed in Note 12.

#### 2.9 Option contracts

A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon price ("strike price") to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller.

Purchased option – Premiums paid by the Fund for the purchased option are included in the Statement of net assets as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as unrealized appreciation or depreciation. If the option is allowed to expire, the Fund will lose the entire premium it paid and record a realized loss for the premium amount. Premiums paid for purchased option which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain/loss or cost basis of the security.

Written option – Premiums received by the Fund for written option are included in the Statement of the net assets. The amount of the liability is adjusted daily to reflect the current market value of the written option and the change in market value is recorded as unrealized appreciation or depreciation. Premiums received from written option that expire are treated as realised gains. The Fund records a realised gain or loss on written option based on whether the cost of the closing transaction exceeds the premium received. If a call option is exercised by the option buyer and compared to the cost of the closing transaction to determine whether there has been a realised gain or loss. If a put option is exercised by an option buyer, the premium received by the option seller reduces the cost of the purchased security.

Written uncovered call option subject the Fund to unlimited risk of loss. Written covered call option limit the upside potential of a security above the strike price. Written put option subject the Fund to risk of loss if the value of the security declines below the exercise price minus the put premium.

The Fund is not subject to credit risk on written option as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Outstanding option contracts are valued by reference to the last available settlement price on the relevant market. Outstanding option contracts as at year-end are disclosed in Note 13.

#### 2.10 Interest rate swap

An interest rate swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payment (usually fixed/floating) based on a notional amount that serves as a computation basis which is usually not exchanged.

Outstanding interest rate swap contracts as at year-end are disclosed in Note 15.

#### 2.11 Formation expenses

The cost of establishing the Fund are capitalised and written down over five years on a straight-line basis.

#### 2.12 Other expenses

The caption "Other expenses" is mainly composed of any reasonable disbursements and out-of-pocket expenses (including without limitation telephone, e-mail, website, cable and postage expenses) incurred by the Depositary, Paying agent, Registrar and Transfer Agent and any depositary charges of banks and financial institutions to which custody of assets of a Sub-Fund is entrusted.

#### Notes to the financial statements as at December 31, 2023 (continued)

## Note 3 - Investment management fees, advisory and sub-investment management fees

The investment management fees, the advisory fees and the sub-investment management fees are payable monthly in arrears and are calculated and accrued on the average net assets of the relevant Sub-Fund or Classes thereof, on the relevant Valuation Day. Such fees for the period from November 20, 2023 to December 31, 2023 are as follows:

Sub-Funds	Investment Management Fee per year	Advisory Fee Fee per year	Sub-Investment Management Fee per year

#### Notes to the financial statements as at December 31, 2023 (continued)

#### Note 8 – Subscription tax ("Taxe d'abonnement")

Under legislation and regulations prevailing in Luxembourg, the Fund is subject to the subscription tax ("taxe d'abonnement") at the rate of 0,05% per annum, except for the sub-funds/share classes which benefit from a reduced tax rate of 0,01%, like money market Sub-Funds and the class of shares dedicated to institutional investors.

A Sub-Fund or share class may be exempted of "taxe d'abonnement" to the extent that: its shares are reserved for institutional investors, it is investing solely in money market instruments and deposits with credit institutions, and it has obtained the highest possible rating from a recognized rating agency.

The "taxe d'abonnement" is calculated on the basis of the NAV of each Sub-Fund on the last day of the calendar quarter and payable quarterly to Luxembourg authorities.

Pursuant to Art 175(a) of the amended Law of December 17, 2010, the net assets invested in UCI already subject to the "taxe d'abonnement" are exempt from this tax.

#### Note 9 – Performance fees

The Investment Manager is entitled to receive, out of the assets of the relevant Sub-Fund(s), a performance fee for such Sub-Fund(s). Such fee is established as follows:

Sub-Funds	Performance Fees	Share Class	Amount of performance fee charged	% on share class NAV of performance fee charged		
BA <sup>3</sup> Strategic Investment Sicav – BA <sup>3</sup> ALETTI OBBLIGAZIONARIO ATTIVO 3 <sup>(*)</sup>	n/a	n/a	n/a	n/a

BA <sup>3</sup> Strategic Investment Sicav – BA <sup>3</sup> ANIMA REDDITO E CRESCITA	n/a	n/a	n/a	n/a		
BA <sup>3</sup> Strategic Investment Sicav – BA <sup>3</sup> FIDELITY CRESCITA EQUILIBRATA	n/a	n/a	n/a	n/a		
BA³ Strategic Investment Sicav – Firmitudo Flexible Strategy	An annual Performance Fee equal to 15% (+ VAT if applicable).         Class A         EUR 0.00         0.000%           The performance fee is crystallised and paid after each performance period. A performance period is a calendar year starting on January 1 and ending on December 31 of each year. Any underperformance or loss previously incurred during the life of the Sub-Fund should be recovered before a Performance Fee becomes payable. The performance fee will be calculated separately per Class of Shares.           The performance fee is payable yearly as at the end of a performance period on December 31 of each year. The percentage of the performance fee in respect of any Class of Shares is indicated above. The performance fee in respect of the Sub-Fund will be paid if the net asset value per Share at the end of a given period where a performance fee has been paid and (ii) the Initial Subscription Price. The High Watermark is not reset (perpetual) and the performance reference period corresponds to the whole life of the Sub-Fund.           The performance fee is calculated on the basis of the Net Asset Value per Share after deducting all expenses, fees (but not the performance fee) and adjusting for subscriptions, redemptions and distributions during the relevant performance period so that these will not affect the performance fee payable.           If the event that an investor redeems Shares prior to the end of the performance period, any accrued but unpaid performance fee in the end of any performance period.           If the livestment Management Agreement entitling the Investment Manager to a performance fee, is terminated before the end of any performance fee in espect of the mandate executed during the performance period will be paid at the end of the relevant performance fee mandate executed during the performance period is					
BAª Strategic Investment Sicav – Firmitudo Flexible Strategy	An annual Performance Fee equal to 7.5% (+ VAT if applicable)         Class B         EUR 0.00         0.000%           The performance fee is crystallised and paid after each performance period. A performance period is a calendar year starting on January 1 and ending on December 31 of each year. Any underperformance or loss previously incurred during the life of the Sub-Fund should be recovered before a Performance Fee becomes payable. The performance fee will be calculated separately per Class of Shares.           The performance fee is payable yearly as at the end of a performance period on December 31 of each year. The percentage of the performance fee in respect of any Class of Shares is indicated above. The performance fee in respect of the Sub-Fund will be paid if the net asset value per Share as at the end of a given period where a performance fee has been paid and (ii) the hitial Subscription Price. The High Watermark is not reset (perpetual) and the performance ference period corresponds to the whole life of the Sub-Fund.           The performance fee is calculated on the basis of the Net Asset Value per Share after deducting all expenses, fees (but not the performance fee) and adjusting for subscriptions, redemptions and distributions during the relevant performance period so that these will not affect the performance fee payable.           If the event that an investor redeems Shares prior to the end of the performance period, any accrued but unpaid performance fee relating to those Shares shall be paid to the Investment Manager at the end of superformance period, will be paid at the end of any performance fee in respect of such performance period, will be paid at the end of any performance fee in respect of such performance period, will be paid at the end of any performance fee in respect of such performance period, will be paid at the end of any

#### Unaudited information

#### **Remuneration policy**

The Management Company established a remuneration policy that is compatible with a sound and efficient management of risks, that encourages such management, and which does not encourage excessive risk-taking which would be inconsistent with the risk profiles, rules or instruments of incorporation of the Funds.

The remuneration policy is aligned with the business strategy, objectives, values and the interests of the Management Company, of the funds and of the investors in such funds, and includes measures to avoid conflict of interests.

The remuneration policy and practice applies to those categories of employees, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the Management Company or of the funds that they manage.

The below represents the total fixed and variable remuneration of the staff of the Management Company attributable to all the funds it manages, taking into account UCITS and non-UCITS, as well as the figures proportionate to the total net assets of the Fund:

#### **BA3 STRATEGIC INVESTMENT SICAV :**

	Total for the Management Company	Proportionally to the Assets of the Fund
Fixed remunerations	3,855,241	322,319
Variable remunerations Number of beneficiaries (average	0	0
headcount)	57	5
Amount paid directly by the Fund	0	0
Remuneration to executives	850,124	71,075
Remuneration of the identified staff	974,965	81,512

The fixed element represents a sufficiently large proportion of the total remuneration and allows the Management Company to operate a completely flexible bonus policy, including the possibility to pay no variable remuneration component. No remuneration includes a variable element commitment. Bonuses were awarded by combining the evaluation of each employee's own performance based on non-financial criteria with that of the relevant operational department concerned and the results of the Management Company.

The Board of Directors of the Management Company establishes the general principles governing the Management Company's remuneration policy and supervises its implementation. This process is governed by the non-executive directors. In establishing this policy, the Board of Directors of the Management Company takes into account all elements pertaining to the Management Company's strategy, the risk-taking strategy, and the nature, scale and complexity of the activities. The Board of Directors of the Management Company is reviewing the remuneration policy on a yearly basis.

The implementation of this remuneration policy is subject, at least once a year, to an internal, centralised and independent analysis by control functions (primarily by the Compliance Officer), in order to verify compliance with the policies and procedures established by the Board of Directors of the Management Company.

The Remuneration Policy was updated in December 2022 in compliance with the Law of May 10th 2016 and with the EU Directive 2014/914/UE. It is available on the website of the Management Company www.adepa.com/third-party-fund-management-company/regulatory-section.

#### **Remuneration policy of delegates**

With reference to the Remuneration Policy of Banca Aletti & C. (Suisse) SA and in particular to art.35 of the "Regolamento di Organizzazione e di Gestione" 2018 / 09 /19, the Bank — in line with the parent company Gruppo Banco BPM remuneration policy - adopts the following rules:

The Bank established a remuneration policy that is compatible with a sound and efficient management of risks, that encourages such management, and which does not encourage excessive risk-taking which would be inconsistent with the risk profiles, rules or instruments involved in its activities.

#### Unaudited information (continued)

The remuneration policy, which is adopted on the basis of the indications of the parent company Banco BPM is aligned with the business strategy, objectives, values and the interests of the Bank, of the clients, of the funds and of the investors in such funds and includes measures to avoid conflict of interests.

The remuneration policy and practice applies to those categories of employees, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the Bank or of the portfolios that they manage.

The below represents the total fixed and maximum variable remuneration of the staff of the Bank attributable to all the activities it manages,

Fixed remunerations 2023 referred to the recipients of the reward system 2024: 820'000,00 CHF

Variable remunerations 2023: 105'000 CHF

Number of beneficiaries (average headcount): 6

Amount paid directly by the Clients/Funds: 0

The fixed element represents a sufficiently large proportion of the total remuneration and allows the Bank to operate a completely flexible bonus policy, including the possibility to pay no variable remuneration component. No remuneration includes a variable element commitment. Bonuses are awarded by combining the evaluation of each employee's own performance based on non-financial criteria with that of the relevant operational department concerned and the results of the Bank.

The Group Banco BPM establishes the general principles governing the Remuneration Policy System and the Board of Directors of the Bank supervises its implementation. This process is governed by an independent department of the parent company Banco BPM. The established policy takes into account all elements pertaining to the Bank's strategy, the risk-taking strategy, and the nature, scale and complexity of the activities. The Banco BPM Group and the Board of Directors of the Bank is reviewing the remuneration policy on a yearly basis.

The implementation of this remuneration policy is subject, at least once a year, to a centralized and independent analysis by Group control functions (primarily depending by the Remuneration Committee of the Group), in order to verify compliance with the laws and the established policies and procedures.

#### **Risk Transparency**

For the Sub-Funds of the BA<sup>3</sup> STRATEGIC INVESTMENT SICAV, except for the Sub-Fund BA<sup>3</sup> STRATEGIC INVESTMENT SICAV - BA<sup>3</sup> PIMCO DIFESA, the Management Company has decided to use the "Commitment Approach" for the calculation of the global exposure in accordance with CSSF Regulation 10-4 replaced by CSSF Circular 11/512 and ESMA Guideline 10-788.

For the Sub-Fund BA<sup>3</sup> STRATEGIC INVESTMENT SICAV - BA<sup>3</sup> PIMCO DIFESA, the Management Company has decided to use the VaR approach (Absolute VaR option).

The following table provides the information required as per CSSF Circular 11/512 as amended by the CSSF Circular 18/698.

#### Securities Financing Transactions Regulation ("SFTR")

During the year ended December 31, 2023, none of the Sub-Funds made use of the financial instruments/techniques to which the Regulation (EU) 2015/2365 on transparency of securities financing transactions regulation ("SFTR") pertains.

#### Unaudited information (continued)

#### Securities Finance Disclosure Regulation ("SFDR")

Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR") lays down harmonised rules for financial market participants and financial advisers on transparency with regard to the integration of sustainability risks and the consideration of adverse sustainability impacts in their processes and the provision of sustainability-related information with respect to financial products.

The investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities except for the Sub-Fund BA<sup>3</sup> STRATEGIC INVESTMENT SICAV - BA<sup>3</sup> ROBECO CRESCITA SOSTENIBILE detailed in Annex IV.

#### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of

### Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not

significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of

#### environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable

Sustainable investments with an environmental objective might be

aligned with the Taxonomy or not.

#### Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained. **Product name:** BA3 STRATEGIC INVESTMENT SICAV - BA3 ROBECO CRESCITA SOSTENIBILE Legal entity identifier: 5493006A75GTETJ0N755

### **Environmental and/or social characteristics**

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The mandate promotes the following Environmental and Social characteristics:

- 1. All equity holdings granted the right to vote and Robeco exerted that right by voting according to Robeco's Proxy Voting Policy, unless impediments occured (e.g. share blocking).
- 2. The Sub-Fund's portfolio complied with the applicable Exclusion Policy excluding investments in companies that are exposed to controversial behavior and controversial products. This means that the Sub-Fund had 0% exposure to excluded securities, taking into account a grace period.
- 3. The Sub-Fund avoided investment in companies that are in breach of the ILO standards, UNGPs, UNGC or OECD Guidelines for Multinational Enterprises. Companies in the portfolio that have breached one of the international guidelines during the investment period, have become part of the Enhanced Engagement program. When engagement deemed highly unlikely to succeed, the company was directly excluded.
- 4. The Sub-Fund invested a minimum of 10% in green bond funds.
- 5. The Sub-Fund invested a minimum of 75% in Robeco managed or externally managed funds classified as Article 8 or 9 under SFDR.

#### How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by this financial product performed as follows. All values are based on the positions and available data as at 31 December 2023.

- 1. On behalf of the underlying target Robeco funds, votes were casted in line with Robeco's voting policy.
- 2. The portfolio did not contain any investments that are on the Exclusion list as result of the application of Robeco's Exclusion policy.
- 3. 0 companies in portfolio are in violation of the ILO standards, UNGPs, UNGC or OECD Guidelines for Multinational Enterprises and hence are a part of the Enhanced Engagement program.
- 4. The Sub-Fund invested 17.66% of its assets in green bond funds.
- 5. The Sub-Fund invested 97.77% in Robeco managed or externally managed funds classified as Article 8 or 9 under SFDR.

#### …and compared to previous periods?

Sustainability indicator	2023	2022
Voting via underlying Robeco funds	Yes	Yes
Investments on exclusion list	0.00%	0.00%
Companies in violation of the ILO standards, UNGPs, UNGC or OECD Guidelines for Multinational Enterprises	0	0
Investments in green bonds	17.66%	17.00%
Investments in funds classified as Article 8 or 9 under SFDR	97.77%	95.64%

### What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Robeco uses its proprietary SDG framework to determine if an investment qualifies as sustainable investment. Robeco's SDG Framework is a tool that systematically assesses individual companies on key SDG targets and sector-specific indicators which help analysts determine a company's SDG contributions. These contributions aggregate into an overall SDG company score. The resulting scores are used to help construct portfolios that pursue positive impact, avoid negative impact, and support sustainable progress in the economy, society and the natural environment. Positive scores imply that the investment does not significantly harm any of the UN Sustainable Development goals.

The sustainable investments contributed to any or more of the UN Sustainable Development Goals, which include both social and environmental objectives. Robeco used its proprietary SDG Framework to assess which investments constitute a sustainable investment as referred to in art 2(17) SFDR. Under the SDG Framework, "SDG scores" are calculated for each investment. Investments having positive SDG scores (+1, +2, +3) are deemed to contribute to the UN SDGs.

# ROBECO

## How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Alignment with the OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and Principal Adverse Impact (PAI) are considered in the calculation of SDG scores under Robeco's proprietary SDG Framework. Violations with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights and Principal Adverse Impact lead to a negative SDG score. Only investments with a positive SDG score can be classified as sustainable investment, indicating that such investments did no significantly harm to any environmental or social sustainable investment objective. Minus scores show harm. Scores of -2 of -3 may even cause significant harm.

How were the indicators for adverse impacts on sustainability factors taken into account?

The mandate considered principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures. For sustainable investments this meant ensuring that the investments do no significantly harm any environmental or social objective. Many PAI indicators are either directly or indirectly included in the SDG Framework to determine whether a company has significant impacts on the SDGs related to the PAI indicators.

The following PAIs were considered in the mandate:

- PAI 1, table 1 was considered for scope 1, 2 and 3 Green House Gas emissions via engagement, proxy voting and exclusions. Robeco's Exclusion policy covers the exclusion of activities with highly negative climate impacts (e.g. thermal coal (≥ 20% of the revenues), oil sands (≥ 10% of the revenues) and artic drilling (≥ 5% of the revenues)).
- PAI 2, table 1 was considered for scope 1 and 2 carbon footprint via engagement, proxy voting and exclusions. Robeco's Exclusion policy covers the exclusion of activities with highly negative climate impacts (e.g. thermal coal (≥ 20% of the revenues), oil sands (≥ 10% of the revenues) and artic drilling (≥ 5% of the revenues)).
- PAI 2, table 1 was considered for scope 1, 2 and 3 carbon footprint via engagement, proxy voting and exclusions. Robeco's Exclusion policy covers the exclusion of activities with highly negative climate impacts (e.g. thermal coal (≥ 20% of the revenues), oil sands (≥ 10% of the revenues) and artic drilling (≥ 5% of the revenues)).
- PAI 3, table 1 was considered for scope 1 and 2 Green House Gas intensity of investee companies via engagement, proxy voting and exclusions. Robeco's Exclusion policy covers the exclusion of activities with highly negative climate impacts (e.g. thermal coal (≥ 20% of the revenues), oil sands (≥ 10% of the revenues) and artic drilling (≥ 5% of the revenues)).
- PAI 4, table 1 regarding the exposure to companies in the fossil fuel sector was considered via engagement, proxy voting and exclusions. Robeco's Exclusion policy covers the exclusion of activities with highly negative climate impacts (e.g. thermal coal (≥ 20% of the revenues), oil sands (≥ 10% of the revenues) and artic drilling (≥ 5% of the revenues)).
- PAI 6, table 1 regarding Energy consumption per High Impact Climate sector was considered via engagement, proxy voting and exclusions. Robeco's Exclusion policy covers the exclusion of activities with highly negative climate impacts (e.g. thermal coal (Coal power expansion plans ≥ 300 MW)).
- PAI 7, table 1 regarding activities negatively affecting biodiversity sensitive areas was considered via engagement. Robeco is developing methods to evaluate the materiality of biodiversity for our portfolios, and the impact of our portfolios on biodiversity.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters. Based on such methods Robeco will set quantified targets in order to combat biodiversity loss, latest by 2024.

- For relevant sectors, biodiversity impact is considered in fundamental SI research analysis. Robeco is developing a framework to consider this across all investments.
- PAI 9, table 1 regarding hazardous waste and radioactive waste ratio was considered via engagement. In addition, within Robeco's Controversial Behavior program, companies are screened on a potential violation in relation to waste. When Robeco deems a company to cause significant negative impact on local water supply or waste issues which is a breach of UN Global Compact principle 7, it will either apply enhanced engagement or directly exclude the company from the universe.
- PAI 10, table 1 regarding violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises was considered via engagement, proxy voting and exclusions. Robeco acts in accordance with the International Labor Organization (ILO) standards, United Nations Guiding Principles (UNGPs), United Nations Global Compact (UNGC) Principles and the Organization for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises, and is guided by these international standards to assess the behavior of companies. In order to mitigate severe breaches, an enhanced engagement process is applied where Robeco deems a severe breach of these principles and guidelines has occured. If this enhanced engagement, which may last up to a period of three years, does not lead to the desired change, Robeco will exclude the company from its investment universe.
- PAI 11, table 1 regarding lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises was considered via engagement and proxy voting. Robeco supports the human rights principles described in the Universal Declaration of Human Rights (UDHR) and detailed in the Guiding Principles on Business and Human Rights (UNGP), the OECD Guidelines for Multinational Enterprises and the eight fundamental International Labour Organization (ILO) conventions. Our commitment to these principles means Robeco will expect companies to formally commit to respect human rights, have in place human rights due diligence processes, and, where appropriate, ensure that victims of human rights abuses have access to remedy.
- PAI 12, table 1 regarding unadjusted gender pay gap was considered via engagement and proxy voting. In 2022, Robeco launched an engagement program on diversity and inclusion, which will include elements in relation to the gender pay gap. Overall, gender pay gap disclosures are only mandatory in few jurisdictions (e.g. UK, California). Companies are encouraged to improve such disclosures.
- PAI 13, table 1 regarding board gender diversity was considered via engagement and proxy voting. In 2022, Robeco launched an engagement program on diversity and inclusion, which will include elements in relation to equal pay.
- PAI 14, table 1 regarding exposure to controversial weapons was considered via exclusions. For all strategies Robeco deems anti-personnel mines, cluster munitions, chemical, biological weapons, white phosphorus, depleted uranium weapons and nuclear weapons that are tailor-made and essential, to be controversial weapons. Exclusion is applied to companies that are manufacturers of certain products that do not comply with the following treaties or legal bans on controversial weapons: 1. The Ottawa Treaty (1997) which prohibits the use, stockpiling, production and transfer of anti-personnel mines. 2. The Convention on Cluster Munitions (2008) which prohibits the use, stockpiling, production and transfer of cluster munitions. 3. The Chemical Weapons Convention (1997) which prohibits the use, stockpiling, production and transfer of chemical weapons. 4. Biological Weapons Convention (1975) which prohibits the use, stockpiling, production and transfer of biological weapons. 5. The Treaty on the Non-Proliferation of Nuclear Weapons (1968) which limits the spread of

nuclear weapons to the group of so-called Nuclear Weapons States (USA, Russia, UK, France and China). 6. The Dutch act on Financial Supervision 'Besluit marktmisbruik' art. 21 a. 7. The Belgian Loi Mahoux, the ban on uranium weapons. 8. Council Regulation (EU) 2018/1542 of 15 October 2018 concerning restrictive measures against the proliferation and use of chemical weapons.

- PAI 5, table 3 regarding the share of investments in investee companies without any grievance or complaints handling mechanism was considered.
- PAI 6, table 3 regarding insufficient whistleblower protection was considered.
- PAI 7, table 3 regarding incidents of discrimination was considered.
- PAI 8, table 3 regarding excessive CEO pay ratio was considered via proxy voting and engagement under the engagement program "Responsible Executive Remuneration".

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights via both Robeco's Exclusion Policy and Robeco's SDG Framework. Robeco's SDG Framework screens for breaches on these principles in the final step of the framework. In this step, Robeco checks whether the company concerned has been involved in any controversies. Involvement in any controversy will result in a negative SDG score for the company, meaning it is not a sustainable investment.

Robeco's Exclusion Policy includes an explanation of how Robeco acts in accordance with the International Labor Organization (ILO) standards, United Nations Guiding Principles (UNGPs), United Nations Global Compact (UNGC) Principles and the Organization for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises and is guided by these international treaties to assess the behaviour of companies. Robeco continuously screens its investments for breaches of these principles. In the reported year, there have been no breaches.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

# How did this financial product consider principal adverse impacts on sustainability factors?

PAI were considered both pre-investment (through exclusions and through integration in the investment due diligence) and post-investment (through engagement). All values are based on the average positions over the reporting period.

Pre-investment, the following principal adverse impacts on sustainability factors were considered:

- Via the applied normative and activity-based exclusions, the following PAIs were considered:
  - Exposure to companies active in the fossil fuel sector (PAI 4, Table 1) was 1.58% of the net assets, compared to 4.73% of the benchmark
  - Exposure to companies in violations of the UN Global Compact Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (PAI 10, Table 1) was 0.00% of the net assets, compared to 0.05% of the benchmark
  - The share of investments in investee companies with sites/operations located in or near biodiversity sensitive areas where activities of those investee companies negatively affect those areas (PAI 7, Table 1) was 3.08% of the net assets, compared to 7.57% of the benchmark
  - Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons (PAI 14, Table 1) was 0.00% of the net assets, compared to 0.17% of the benchmark
- Via the environmental footprint performance targets of the Sub-fund, the following PAIs were considered:
  - The carbon footprint of the portfolio (PAI 2, table 1) was 565 tons per EUR million EVIC, compared to 528 tons per EUR million EVIC for the benchmark

Post-investment, the following principal adverse impacts on sustainability factors are taken into account:

- Via the application of the voting policy, the following PAIs are considered:
  - The greenhouse gas emissions scope 1 and 2 (PAI 1, table 1) of the portfolio were 276 tons, compared to 341 tons for the benchmark
  - The carbon footprint of the portfolio (PAI 2, table 1) was 565 tons per EUR million EVIC, compared to 528 tons per EUR million EVIC for the benchmark
  - The greenhouse gas intensity of the portfolio (PAI 3, table 1) was 2,209 tons per EUR million revenue, compared to 1,776 tons per EUR million revenue for the benchmark
  - The share of investments in investee companies with sites/operations located in or near biodiversity sensitive areas where activities of those investee companies negatively affect those areas (PAI 7, Table 1) was 3.08% of the net assets, compared to 7.57% of the benchmark
  - The share of non-renewable energy consumption of investee companies from non-renewable energy sources compared to renewable energy sources (PAI 5, Table 1), expressed as a percentage of total energy sources was 57.38% of the net assets, compared to 62.18% of the benchmark
  - The share of non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources (PAI 5, Table 1), expressed as a percentage of total energy sources voor de funds was 40.12% of the net assets, compared to 56.62% of the benchmark
  - The energy consumption per million EUR of revenue of investee companies, per high-impact climate sector (PAI 6, Table 1) was 0.39GWh, compared to 0.86GWh for the benchmark
  - Exposure to companies in violations of the UN Global Compact Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (PAI 10, Table 1) was 0.00% of the net assets, compared to 0.05% of the benchmark
  - The share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises (PAI 11, Table 1) was 1.57%, compared to 0.90% for the benchmark

- The share of investments in investee companies without grievance / complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises (PAI 11, Table 1) was 41.97%, compared to 53.11% for the benchmark
- The average unadjusted gender pay gap of investee companies (PAI 12, Table 1) was 12.23%, compared to 11.99% for the benchmark
- The average ratio of female to male board members in investee companies expressed as a percentage of all board members (PAI 13, Table 1) was 35.31%, compared to 34.64% for the benchmark
- Indicators in relation to social and employee matters (PAI 5-7, Table 3)
- The average ratio within investee companies of the annual total compensation for the highest compensated individual to the median annual total compensation for all employees (excluding the highest compensated individual) (PAI 8, Table 3) was 279.16, compared to 326.19 for the benchmark
- Via Robeco's entity engagement program, the following PAIs are considered:
  - Via the Robeco Entity Engagement program, the following numbers of engagement cases per PAI were active on portfolio holdings, during the reporting period: PAI 1, table 1: GHG emissions 20 cases. PAI 2, table 1: Carbon footprint 20 cases. PAI 3, table 1: GHG intensity of investee companies 20 cases. PAI 4, table 1: Exposure to companies active in the fossil fuel sector 20 cases. PAI 5, table 1: Share of non-renewable energy consumption and production 20 cases. PAI 6, table 1: Energy consumption intensity per high impact climate sector 20 cases. PAI 7, table 1: Activities negatively affecting biodiversity sensitive areas 28 cases. PAI 8, table 1: Emissions to water 18 cases. PAI 9, table 1: Hazardous waste and radioactive waste ratio 18 cases. PAI 10, table 1: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises 16 cases. PAI 11, table 1: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises 16 cases. PAI 12, table 1: Unadjusted gender pay gap 21 cases. PAI 13, table 1: Board gender diversity 21 cases. PAI 14, table 1: Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) 16 cases.
  - All indicators related to Climate and other environment-related indicators (PAI 1-9, Table 1). For details see above
  - Exposure to companies in violations of the UN Global Compact Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises (PAI 10, Table 1) was 0.00% of the net assets, compared to 0.05% of the benchmark
  - The share of investments in investee companies with sites/operations located in or near biodiversity sensitive areas where activities of those investee companies negatively affect those areas (PAI 7, Table 1) was 3.08% of the net assets, compared to 7.57% of the benchmark
  - In addition, based on a yearly review of Robeco's performance on all mandatory and selected voluntary indicators, holdings of the Sub-fund that cause adverse impact might be selected for engagement.

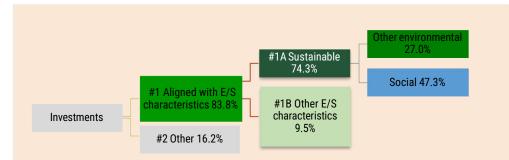

#### What were the top investments of this financial product?

Largest investments	Sector	% Assets Country
Microsoft Corp	Software	1.85% United States
Apple Inc	Technology Hardware, Storage & Peripherals	1.42% United States
NVIDIA Corp	Semiconductors & Semiconductor	0.79% United States
Alphabet Inc (Class A)	Interactive Media & Services	0.79% United States

#### What was the proportion of sustainability-related investments?

83.8%

#### What was the asset allocation?

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#20ther** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

The list includes the investments constituting **the** greatest proportion of investments of the financial product during the reference period which is: 1 January 2023 through 31 December 2023

#### Asset allocation

describes the share of investments in specific assets.

### In which economic sectors were the investments made?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

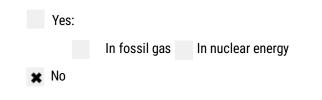

00

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

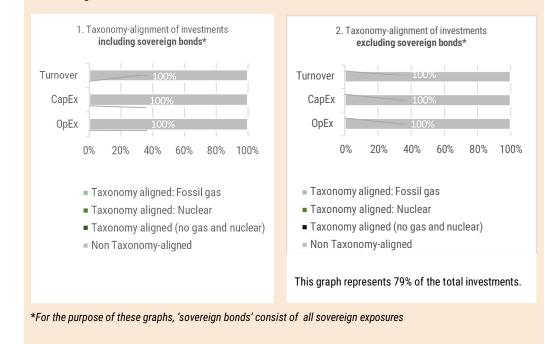

0%.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy 1?

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage Taxonomy Alignment in portfolio did not change during the reporting period.

Taxonomy-aligned activities are expressed as a share of:

- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

27.0%. This concerns investments with a positive score on one of more of the following SDG's, without harming other SDG's: SDG 12 (Responsible consumption and production), 13 (Climate action), 14 (Life below water) or 15 (Life on land).

#### What was the share of socially sustainable investments?

47.3%. This concerns investments with a positive score on one of more of the following SDGs, without harming other SDGs: SDG 1 (No poverty), 2 (Zero hunger), 3 (Good health and well-being), 4 (Quality education), 5 (Gender equality), 6 (Clean water and sanitation), 7 (Affordable and clean energy), 8 (Decent work and economic growth), 9 (Industry, innovation and infrastructure), 10 (Reduced inequalities), 11 (Sustainable cities and communities), 16 (Peace, justice and strong institutions) or 17 (Partnerships for the goals).

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Amongst others, the use of cash, cash equivalents and derivatives is included under "#2 Other". The mandate may make use of derivatives for hedging, liquidity and efficient portfolio management as well as investment purposes (in line with the investment policy). Any derivatives in the mandate were not used to attain environmental or social characteristics promoted by the financial product.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reporting period, the overall sustainability profile of the mandate was improved further by focusing on material information with regards to Environmental, Social and Governance factors. Furthermore, 123 holdings were under active engagement either within Robeco's thematic engagement programs or under more company-specific engagement topics related to Environmental, Social and/or Governance issues. In addition, 17.66% of the assets were invested in green bonds.

#### How did this financial product perform compared to the reference benchmark?

There is no reference benchmark designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

are

#### Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### How did this financial product perform compared with the reference benchmark?

Not applicable.

### How did this financial product perform compared with the broad market index?

Not applicable.
