

Low Code Developer

Banque Havilland offers traditional Private Banking Services to High Net Worth Individuals and Families across the globe. The Bank is committed to providing clients with a highly personal and professional service in all aspects of its operations. The success of this strategy is ensured through our team of highly dedicated employees who contribute to a strong service and client oriented culture.

The Bank's aim is to enable individuals and families' wealth to safely thrive, to help them fulfil their goals and realise their ambitions for themselves and for the next generations.

We are currently looking for a **Low Code Developer** *(12 to 18 months contract to cover a maternity & parental leave absence)* to join our headquarter in Luxembourg.

Regardless of the temporary duration of the contract, this still remains a great opportunity to join a talented and highly motivated team about all the activities they are in charge, and we are looking for a dedicated team member to complement our committed team.

By working in a small team that operates in a dynamic environment, you will be exposed to various and challenging tasks within the IT Applications area and you will be able to learn and gain valuable knowledge from the team members.

We welcome both junior and senior candidates to apply, as we believe that diverse experiences and skillsets contribute to our team's success.

Key responsibilities

- Developing innovative business tools for the group;
- Ensuring the delivery of products and services of unparalleled quality and high added value;
- Serving as a pivotal partner to both the business and the wider team;
- Crafting in-depth technical analyses to drive informed decision-making;
- Providing level 3 support across all departments and entities of the group.

You have

- Advanced knowledge of SQL (mandatory requirement);
- First experience within the banking sector is a plus;
- Professional behaviour, diplomacy, good attention to details and a willingness to learn;
- Any expertise in the following areas will be considered as an advantage:
 - Oracle relational database design
 - PL/SQL proficiency
 - Oracle APEX experience
 - Proficiency in any language other than English

You are

- Team player with good analytical and communication skills and highly service-oriented;
- Proactive, able to work autonomously, quality oriented and in a timely manner;
- Able to work under pressure and respect deadlines;
- Fluent in English (both spoken and written).

We offer

Located in bright and modern offices in Kirchberg-Luxembourg City, Banque Havilland was founded in 2009 and currently employs around 200 employees from all over the world. The Bank has presences in Monaco, Liechtenstein, London, Dubai, and Zurich. We offer a pleasant and collaborative working atmosphere in a truly multicultural environment.

We believe that diversity & inclusion contribute towards increasing the collective performance of the bank. We are committed to creating a culture of inclusion that encourages individual development with equal opportunities for all.

We value empowerment, fairness, integrity and diligence, and your personal development is our priority.

If you are interested in taking this challenging opportunity, please send your application (cover letter, CV, supporting references) to the following e-mail address: **careerbh@banquehavilland.com**.

Only shortlisted candidates will be contacted by our HR team.

The personal information you provide in your job application will be treated confidentially at all times and will be processed in accordance with the applicable data protection law, in particular the General Data Protection Regulation (GDPR).

In compliance with the law of 23rd July 2016, the selected candidate will be requested to provide a criminal record (section 3).
